E **fumeum** C.H.Stirt.

Perennial. Shrub. Ht up to 3 m. Alt 1600–3200 m. KZN

E **hamatum** (Harv.) C.H.Stirt.

Psoralea hamata Harv. (4)

Perennial. Shrub. Ht up to 1.5 m. Alt 300–1000 m. NC, WC

E **heterosepalum** (Fourc.) C.H.Stirt.

Psoralea heterosepala Fourc. (4)

Perennial. Resprouting shrub. Ht up to 2 m. Alt 260–730 m. WC, EC

E **hirtum** (L.) C.H.Stirt.

Psoralea hirta L. (4)

Psoralea stachydis L.f. (4)

Psoralea stachyos Thunb. (4)

Perennial. Shrub. Ht up to 2 m. Alt 160–330 m. WC

E **incanum** C.H.Stirt.

Perennial. Subshrub. Ht up to 1 m. Alt 60–130 m. WC

E **macradenium** (Harv.) C.H.Stirt.

Psoralea macradenia Harv. (4)

Perennial. Resprouting shrub. Ht up to 2 m. Alt 400–900 m. WC

E **mundianum** (Eckl. & Zeyh.) C.H.Stirt.

Psoralea decumbens Willd. (4)

Psoralea mundiana Eckl. & Zeyh. (4)

Psoralea spathulata E.Mey. (4)

Perennial. Resprouting subshrub. Ht up to 1 m. Alt 1200–1580 m. WC

nigricans C.H.Stirt.

Perennial. Shrub. Ht up to 1.5 m. Alt 1500–2100 m. M, S, KZN

E **obliquum** (E.Mey.) C.H.Stirt.

Psoralea obliqua E.Mey. (4)

Perennial. Resprouting subshrub. Ht up to 1.2 m. Alt 360–1300 m. WC

E **parviflorum** (E.Mey.) C.H.Stirt.

Psoralea parviflora E.Mey. (4)

Perennial. Resprouting subshrub. Ht up to 1 m. Alt 260–1160 m. WC

E **pictum** C.H.Stirt.

Perennial. Shrub. Ht up to 2 m. Alt 630–1330 m. EC

E **polyphyllum** (Eckl. & Zeyh.) C.H.Stirt.

Psoralea polyphylla Eckl. & Zeyh. (4)

Perennial. Shrublet. Ht up to 1 m. Alt 400–600 m. EC

polystictum (Benth. ex Harv.) C.H.Stirt.

Psoralea polysticta Benth. ex Harv. (4)

Perennial. Shrub. Ht up to 2 m. Alt 450–2300 m. LIM, G, M, FS, KZN, L, EC

E **pungens** C.H.Stirt.

Perennial. Decumbent shrublet. Ht up to 0.4 m. Alt 20–160 m. WC

E **pustulatum** C.H.Stirt.
Perennial. Shrub. Ht up to 1 m. Alt 700–800 m. NC

E **racemosum** (Thunb.) C.H.Stirt.
Psoralea hilaris Eckl. & Zeyh. (4)
Psoralea racemosa Thunb. (4)
Perennial. Resprouting subshrub. Ht up to 0.8 m. Alt 600–1400 m. WC

E **rotundifolium** (L.f.) C.H.Stirt.
Psoralea rotundifolia L.f. (4)
Perennial. Resprouting subshrub. Ht up to 0.2 m. Alt 430–530 m. WC

E **rubicundum** C.H.Stirt.
Perennial. Shrub or subshrub. Ht up to 1.5 m. Alt 1000–1460 m. WC

E **sericeum** (Poir.) C.H.Stirt.
Eriosema capitatum E.Mey. (4)
Psoralea pedunculata Ker Gawl. (4)
Psoralea sericea Poir. (4)
Psoralea tomentosum Thunb. (4)
Perennial. Shrub or subshrub. Ht up to 2 m. Alt 10–600 m. WC, EC

E **spicatum** (L.) C.H.Stirt.
Psoralea spicata L. (4)
Perennial. Reseeding shrub. Ht up to 3 m. Alt 30–400 m. WC

E **stachyerum** (Eckl. & Zeyh.) C.H.Stirt.
Psoralea stachyera Eckl. & Zeyh. (4)
Perennial. Reseeding shrub. Ht up to 3 m. Alt 200–1450 m. WC, EC

E **striatum** (Thunb.) C.H.Stirt.
Psoralea eckloniana Otto (4)
Psoralea rupicola Eckl. & Zeyh. (4)
Psoralea stricta Thunb. (4)
Perennial. Tree or shrub. Ht up to 2.5 m. Alt 300–1000 m. NC, WC

E **swartbergense** C.H.Stirt.
Perennial. Shrublet. Ht up to 0.3 m. Alt 1560–1860 m. WC

E **thomii** (Harv.) C.H.Stirt.
Psoralea thomii Harv. (4)
Perennial. Resprouting subshrub. Ht up to 0.4 m. Alt 0–150 m. WC

E **trianthum** (E.Mey.) C.H.Stirt.
Psoralea triantha E.Mey. (4)
Psoralea triflora Poir. (4)
Perennial. Shrub. Ht up to 2 m. Alt 100–500 m. WC

E **uncinatum** (Eckl. & Zeyh.) C.H.Stirt.
Psoralea cephalotes E.Mey. (4)
Psoralea uncinata Eckl. & Zeyh. (4)
Perennial. Subshrub. Ht up to 0.9 m. Alt 0–750 m. WC

E **venustum** (Eckl. & Zeyh.) C.H.Stirt.
Psoralea venusta Eckl. & Zeyh. (4)
Perennial. Subshrub. Ht up to 1 m. Alt 100–200 m. WC

E **virgatum** (Burm.f.) C.H.Stirt.
O. decumbens (Aiton) C.H.Stirt. (7)
Psoralea decumbens Aiton (7)
Perennial. Trailing resprouting subshrub. Ht up to 0.2 m. Alt 0–400 m. WC, EC

wilmsii (Harms) C.H.Stirt.
Psoralea wilmsii Harms (4)
Perennial. Tree or shrub. Ht up to 3 m. Alt 950–2300 m. LIM, M, S, KZN

E **zeyheri** (Harv.) C.H.Stirt.
Psoralea zeyheri Harv. (4)
Perennial. Resprouting subshrub. Ht up to 0.4 m. Alt 60–800 m. WC

FLACOURTIACEAE
Compiled by R.H. Archer & C.L. Bredenkamp

Notes: phylogenetic relationships within the Flacourtiaceae, Salicaceae and Achariaceae have been reassessed with *rbcl*, *trnL-F* and *ndhF* DNA sequences and several groups have been identified. The first group retains the family name Salicaceae as the name has nomenclatural priority, and the second group has the conserved name Achariaceae (Soltis *et al.* 2000, in *Botanical Journal of the Linnean Society* 133: 381–461; Chase *et al.* 2002, in *Kew Bulletin* 57: 141–181).

Aphloia is in its own family, Aphloiaceae in the order Crossomatales (Matthews & Endress 2005, in *Botanical Journal of the Linnean Society* 147: 1–46). *Casearia*, with a number of other genera not analysed with *rbcL*, belongs together with a resurrected Samydaceae (Alford pers. com.). *Gerrardina*, also not previously considered, should be placed in its own family (Alford, pers. com.; Alford, M.H. 2005. *Systematic studies in Flacourtiaceae*. Dissertation, Cornell University, Ithaca, New York, 290 pp.). The present publication, however, retains *Gerrardina* in Salicaceae awaiting the publication in press.

(1) Bates. 1969. *Gentes Herbarum* 10,3: 215–383.

E**alexandri** (Baker f.) Bates
Malvastrum alexandri Baker f. (1)
Perennial. Shrub. Ht 0.1–0.3 m. Alt? EC

E**anomala** (Link & Otto) Bates
A. dregeana Presl (1)
Malva anomala Link & Otto (1)
Malva divaricata in sense of Harv., not of Andrews, misapplied name (1)
Sphaeralcea dregeana (C.Presl) Harv. (1)
Perennial. Shrub, dwarf shrub. Ht 0.3–1.52 m. Alt 550–3000 m. NC, WC

E**biflora** (Desr.) Bates
Malvastrum albens Harv. (1)
Malvastrum grosulariifolium in sense of Garcke, not of A.Gray, also not of A.Gray & Harv., misapplied name (1)
Malveopsis albens (Harv.) Kuntze (1)
Perennial. Shrub. Ht 0.5–1.82 m. Alt 500–1200 m. WC

E**bryoniifolia** (L.) Bates
Malvastrum asperrimum (Jacq.) A.Gray & Harv. (1)
Malvastrum asperrimum (Jacq.) A.Gray & Harv. var. *stellatum* (Thunb.) Harv. (1)
Malvastrum bryoniifolium (L.) A.Gray & Harv. (1)
Malveopsis asperrima (Jacq.) Kuntze (1)
Malveopsis bryoniifolia (L.) Kuntze (1)
Perennial. Shrub. Ht 1.37–2.5 m. Alt 700–3200 m. NC, WC

E**capensis** (L.) Bates
Malva capensis L. var. *capensis* (1)
Malvastrum capense (L.) A.Gray & Harv., as to basionym (1)
Malvastrum capense (L.) A.Gray & Harv. var. *glabrescens* Harv., as to basionym (1)
Malvastrum divaricatum (Andrews) A.Gray & Harv. (1)
Malvastrum virgatum (Murray) A.Gray & Harv., as to basionym (1)
Malvastrum virgatum (Murray) A.Gray & Harv. var. *dillenianum* (Eckl. & Zeyh.) Harv., as to basionym (1)
Perennial. Shrub. Ht 0.76–1.21 m. Alt 670–2167 m. NC, WC, EC

E**dissecta** (Harv.) Bates
Malvastrum dissectum Harv. (1)

Malveopsis dissecta (Harv.) Kuntze (1)
Perennial. Dwarf shrub. Ht 0.1–0.2 m. Alt? WC

dregeana Presl = **A. anomala**

[E]**elegans** (Cav.) Bates
Malva elegans Cav. (1)
Sphaeralcea elegans (Cav.) G.Don (1)
Perennial. Shrub. Ht 0.6–1.76 m. Alt 800–1700 m. WC

[E]**fruticosa** (P.J.Bergius) Bates
Malvastrum tridactyles (Cav.) A.Gray & Harv. (1)
Malvastrum tridactyles (Cav.) A.Gray & Harv. var. *glabrum* Harv. (1)
Malvastrum tridactyles (Cav.) A.Gray & Harv. var. *puberulum* Harv. (1)
Malvastrum tridactyles (Cav.) A.Gray & Harv. var. *stellatum* Harv. (1)
Perennial. Shrub. Ht 0.8–1.52 m. Alt 800–1000 m. WC

[E]**gracilis** Bates
Perennial. Dwarf shrub. Ht? Alt? WC

julii (Burch. ex DC.) Bates subsp. **julii**
Sphaeralcea julii (Burch. ex DC.) Baker f. (1)
Sphaeralcea pannosa in sense of E.Phillips, not of Bolus, misapplied name (1)
Sphaeroma julii (Burch. ex DC.) Harv. (1)
Perennial. Shrub. Ht 0.81–2 m. Alt 1700–2900 m. FS, KZN, L, EC

[E?]**julii** (Burch. ex DC.) Bates subsp. **pannosa** (Bolus) Bates
Sphaeralcea pannosa Bolus (1)
Sphaeroma pannosum (Bolus) Kuntze (1)
Perennial. Shrub. Ht 1–2.5 m. Alt 1–2300 m. KZN

julii (Burch. ex DC.) Bates subsp. **prostrata** (E.Mey. ex Turcz.) Bates
Sphaeralcea prostrata (Harv.) Baker f. var. *mollis* (Harv.) Baker f. (1)
Sphaeralcea prostrata (Turcz.) Baker f. (1)
Sphaeroma prostratum (Turcz.) Harv. var. *molle* Harv. (1)
Sphaeroma prostratum (Turcz.) Harv. var. *prostrata* (Turcz.) Baker f. (1)
Perennial. Shrub. Ht 1.5–2.74 m. Alt 1400–2100 m. FS, KZN, L, EC

[E]**malvastroides** (Baker f.) Bates
Perennial. Shrub. Ht 0.5–1.5 m. Alt ?–1829 m. NC, WC, EC

[E]**procumbens** (Harv.) Bates
Malvastrum procumbens Harv. (1)
Perennial. Shrub. Ht 1–1.21 m. Alt ± 830 m. WC

[E]**pseudocapensis** Bates
Perennial. Dwarf shrub. Ht ± 0.3 m. Alt 200–400 m. WC

[E]**racemosa** (Harv.) Bates
Malvastrum racemosum Harv. (1)
Perennial. Dwarf shrub. Ht up to 0.8 m. Alt 812–1000 m. NC, WC

[E]**reflexa** (J.C.Wendl.) Bates
Perennial. Shrub. Ht 0.91–3.04 m. Alt 381–1300 m. WC, EC

[E]**scabrosa** (L.) Bates
Malva capensis L. var. *scabrosa* (L.) L. (1)
Malva capensis of author,. not of L., concept invalid (1)
Malva retusa Cav. (1)
Malvastrum angustifolium (Harv.) Stapf (1)
Malvastrum calycinum (Cav.) A.Gray & Harv. (1)
Malvastrum capense in sense of A.Gray & Harv. excl. basionym, misapplied name (1)
Malvastrum capense in sense of A.Gray & Harv. var. *balsamicum* (Jacq.) Harv., misapplied name (1)

Ruschia leipoldtii L.Bolus (6)
Perennial. Succulent. Ht 0.15–0.2 m. Alt 800–1100 m. WC

E leucanthera (L.Bolus) H.E.K.Hartmann
Mesembryanthemum leucantherum L.Bolus (6)
Ruschia leucanthera (L.Bolus) L.Bolus (6)
Perennial. Succulent. Ht up to 0.03 m. Alt 700–1800 m. WC

E**limbata** (N.E.Br.) H.E.K.Hartmann
Mesembryanthemum limbatum N.E.Br. (6)
Ruschia limbata (N.E.Br.) Schwantes (6)
Perennial. Succulent. Ht 0.03–0.1 m. Alt 5–100 m. WC

E**lodewykii** (L.Bolus) H.E.K.Hartmann
Ruschia lodewykii L.Bolus (6)
Perennial. Succulent. Ht up to 0.03 m. Alt 200–400 m. NC, WC

E**loganii** (L.Bolus) H.E.K.Hartmann
Ruschia loganii L.Bolus (6)
Perennial. Succulent. Ht ± 0.1 m. Alt 400–1100 m. WC

E**lokenbergensis** (L.Bolus) H.E.K.Hartmann
Ruschia lokenbergensis L.Bolus (6)
Perennial. Succulent. Ht ± 0.45 m. Alt 800–1500 m. NC

E**longipes** (L.Bolus) Dehn
Mesembryanthemum longipes (L.Bolus) N.E.Br. (6)
Ruschia longipes L.Bolus (3)
Perennial. Succulent. Ht ± 0.08 m. Alt up to 1200 m. NC

E**luckhoffii** (L.Bolus) H.E.K.Hartmann
Ruschia luckhoffii L.Bolus (6)
Perennial. Succulent. Ht up to 0.05 m. Alt 500–700 m. WC

E**maleolens** (L.Bolus) H.E.K.Hartmann
Mesembryanthemum maleolens (L.Bolus) N.E.Br. (6)
Ruschia maleolens L.Bolus (6)
Perennial. Succulent. Ht 0.12–0.25 m. Alt 50–300 m. NC

E**maxwellii** (L.Bolus) H.E.K.Hartmann
Mesembryanthemum maxwellii (L.Bolus) N.E.Br. (6)
Ruschia maxwellii L.Bolus (6)
Perennial. Succulent. Ht 0.06–0.2 m. Alt 900–1400 m. EC

E**menniei** (L.Bolus) H.E.K.Hartmann
Ruschia menniei L.Bolus (6)
Perennial. Succulent. Ht ± 0.25 m. Alt 200–400 m. WC

E**mesklipensis** (L.Bolus) H.E.K.Hartmann
Ruschia mesklipensis L.Bolus (6)
Perennial. Succulent. Ht ± 0.1 m. Alt 300–1200 m. NC

E**meyerae** (Schwantes) H.E.K.Hartmann
Ruschia meyerae Schwantes (6)
Perennial. Succulent. Ht up to 0.05 m. Alt up to 1200 m. NC

E**microphylla** (Haw.) Dehn
Mesembryanthemum microphyllum Haw. (3)
Ruschia microphylla (Haw.) Schwantes (3)
Perennial. Succulent. Ht ± 0.1 m. Alt 300–1800 m. WC

E**minima** (Tischer) H.E.K.Hartmann
Cheiridopsis minima Tischer (6)
Perennial. Succulent. Ht 0.05–0.06 m. Alt up to 1200 m. NC

E**minutifolia** (L.Bolus) H.E.K.Hartmann
Ruschia minutifolia L.Bolus (6)
Perennial. Succulent. Ht ± 0.08–0.15 m. Alt 300–900 m. WC

E**mucronata** (Haw.) H.E.K.Hartmann
Mesembryanthemum mucronatum Haw. (6)
Ruschia mathewsii L.Bolus (6)
Ruschia mucronata (Haw.) Schwantes (6)
Perennial. Succulent. Ht ± 0.04 m. Alt 180–300 m. WC

E**mutica** (L.Bolus) H.E.K.Hartmann
Mesembryanthemum muticum (L.Bolus) N.E.Br. (6)
Ruschia mutica L.Bolus (6)
Perennial. Succulent. Ht ± 0.12 m. Alt 300–600 m. WC

E**nobilis** (Schwantes) H.E.K.Hartmann
Ruschia nobilis Schwantes (6)
Perennial. Succulent. Ht ± 0.3 m. Alt 200–900 m. NC

E**nordenstamii** (L.Bolus) H.E.K.Hartmann
Ruschia nordenstamii L.Bolus (6)
Perennial. Succulent. Ht ± 0.4 m. Alt 200–400 m. WC

E**oviformis** (L.Bolus) H.E.K.Hartmann
Ruschia oviformis L.Bolus (6)
Perennial. Succulent. Ht ± 0.06 m. Alt 100–300 m. NC

E**papillata** (Bolus) H.E.K.Hartmann
Ruschia meyeri Schwantes (6)
Ruschia papillata L.Bolus (6)
Perennial. Succulent. Ht ± 0.2 m. Alt 300–1200 m. NC, WC

E**paucifolia** (L.Bolus) H.E.K.Hartmann
Ruschia paucifolia L.Bolus (6)
Perennial. Succulent. Ht ± 0.2 m. Alt 200–1400 m. NC, WC

E**pauper** (L.Bolus) H.E.K.Hartmann
Ruschia pauper L.Bolus (6)
Perennial. Succulent. Ht ± 0.35 m. Alt up to 1100 m. NC

E**peersii** (L.Bolus) H.E.K.Hartmann
Mesembryanthemum formosulum N.E.Br. (6)
Ruschia peersii L.Bolus (6)
Perennial. Succulent. Ht ± 0.08 m. Alt 200–800 m. WC

E**persistens** (L.Bolus) H.E.K.Hartmann
Ruschia persistens L.Bolus (1963), not of L.Bolus (1932), illegitimate name (6)
Perennial. Succulent. Ht ± 0.07–0.15 m. Alt 300–800 m. WC

E**pilosula** (L.Bolus) H.E.K.Hartmann
Ruschia pilosula L.Bolus (6)
Perennial. Succulent. Ht ± 0.24 m. Alt 200–600 m. NC

E**piscodora** (L.Bolus) H.E.K.Hartmann
Ruschia piscodora L.Bolus (6)
Perennial. Succulent. Ht ± 0.54 m. Alt 800–1800 m. NC, WC

E**prolongata** (L.Bolus) H.E.K.Hartmann
Ruschia prolongata L.Bolus (6)
Perennial. Succulent. Ht ± 0.3 m. Alt 400–1600 m. NC

E**propinqua** (N.E.Br.) H.E.K.Hartmann
Mesembryanthemum propinquum N.E.Br. (6)
Ruschia propinqua (N.E.Br.) Schwantes (6)
Perennial. Succulent. Ht ± 0.027 m. Alt 500–800 m. WC

E**prostrata** (L.Bolus) H.E.K.Hartmann
Mesembryanthemum prostratum (L.Bolus) N.E.Br. (6)
Ruschia prostrata L.Bolus (6)
Perennial. Succulent. Ht ± 0.15 m. Alt 100–500 m. WC

E**pumila** (Fedde & K.Schust.) H.E.K.Hartmann
Mesembryanthemum levynsiae L.Bolus (6)
Mesembryanthemum pumilum L.Bolus (6)
Mesembryanthemum pumilum (L.Bolus) N.E.Br., illegitimate name (6)
Ruschia levynsiae (L.Bolus) Schwantes (6)
Ruschia pumila L.Bolus (6)
Perennial. Succulent. Ht ± 0.1 m. Alt 300–600 m. WC

E**pusilla** (Schwantes) H.E.K.Hartmann
Mesembryanthemum parvum N.E.Br. (6)
Ruschia pusilla Schwantes (6)
Perennial. Succulent. Ht ± 0.075 m. Alt up to 1000 m. NC

E **pygmaea** (Haw.) H.E.K.Hartmann
Mesembryanthemum pygmaeum Haw. (6)
Ruschia pygmaea (Haw.) Schwantes (6)
Perennial. Succulent. Ht ± 0.15 m. Alt 300–1100 m. WC

E **roseola** (N.E.Br.) H.E.K.Hartmann
Mesembryanthemum roseolum N.E.Br. (6)
Ruschia roseola (N.E.Br.) Schwantes (6)
Perennial. Succulent. Ht ± 0.2 m. Alt 200–800 m. WC

E **saturata** (L.Bolus) H.E.K.Hartmann
Mesembryanthemum atrocinctum N.E.Br. (6)
Ruschia saturata L.Bolus (6)
Perennial. Succulent. Ht ± 0.12 m. Alt 200–800 m. WC

E **saxicola** (L.Bolus) H.E.K.Hartmann
Mesembryanthemum saxicolum (L.Bolus) N.E.Br. (6)
Ruschia saxicola L.Bolus (6)
Perennial. Succulent. Ht ± 0.7 m. Alt 1400–1600 m. FS

E **schlechteri** (Schwantes) H.E.K.Hartmann
Mesembryanthemum schlechteri (Schwantes) N.E.Br. (6)
Ruschia schlechteri Schwantes (6)
Perennial. Succulent. Ht 0.05–0.1 m. Alt ± 1200 m. NC

E **simulans** (L.Bolus) H.E.K.Hartmann
Ruschia simulans L.Bolus (6)
Perennial. Succulent. Ht ± 0.05 m. Alt 200–400 m. WC

E **sobrina** (N.E.Br.) H.E.K.Hartmann
Mesembryanthemum sobrinum N.E.Br. (6)
Ruschia sobrina (N.E.Br.) Schwantes (6)
Perennial. Succulent. Ht ± 0.027 m. Alt 200–300 m. WC

E **solida** (L.Bolus) H.E.K.Hartmann
Mesembryanthemum solidum L.Bolus (6)
Ruschia solida (L.Bolus) L.Bolus var. *solida* (6)
Ruschia solida (L.Bolus) L.Bolus var. *stigmatosa* L.Bolus (6)
Perennial. Succulent. Ht ± 0.08 m. Alt 100–400 m. WC

E **stayneri** (L.Bolus) H.E.K.Hartmann
Ruschia stayneri L.Bolus (6)
Perennial. Succulent. Ht ± 0.3 m. Alt 900–1600 m. NC

E **stokoei** (L.Bolus) H.E.K.Hartmann
Ruschia stokoei L.Bolus (6)
Perennial. Succulent. Ht ± 0.05 m. Alt 400–600 m. WC

E **subtruncata** (L.Bolus) H.E.K.Hartmann
Ruschia subtruncata L.Bolus var. *minor* L.Bolus (6)
Ruschia subtruncata L.Bolus var. *subtruncata* (6)
Perennial. Succulent. Ht ± 0.1 m. Alt 700–900 m. NC

E **triquetra** (L.Bolus) H.E.K.Hartmann
Mesembryanthemum triquetrum (L.Bolus) N.E.Br. (6)
Ruschia triquetra L.Bolus (6)
Perennial. Succulent. Ht ± 0.15 m. Alt 300–600 m. NC, WC

E **tuberculosa** (L.Bolus) H.E.K.Hartmann
Mesembryanthemum enorme N.E.Br. (6)
Ruschia tuberculosa L.Bolus (6)
Perennial. Succulent. Ht ± 0.08 m. Alt 300–600 m. WC

E **turneriana** (L.Bolus) H.E.K.Hartmann
Ruschia turneriana L.Bolus (6)
Perennial. Succulent. Ht 0.02–0.04 m. Alt 200–400 m. WC

E **vanzylii** (L.Bolus) H.E.K.Hartmann
Ruschia vanzylii L.Bolus (6)
Perennial. Succulent. Ht ± 0.2 m. Alt 800–950 m. NC

E **varians** (L.Bolus) H.E.K.Hartmann
Ruschia varians L.Bolus (6)
Perennial. Succulent. Ht ± 0.18 m. Alt 800–1200 m. NC

E **ventricosa** (L.Bolus) H.E.K.Hartmann
Cheiridopsis ventricosa (L.Bolus) N.E.Br. (6)
Mesembryanthemum ventricosum L.Bolus (6)
Ruschia ventricosa (L.Bolus) Schwantes (6)
Perennial. Succulent. Ht ± 0.1 m. Alt 300–600 m. WC

E **verruculosa** (L.Bolus) H.E.K.Hartmann
Mesembryanthemum verruculosum (L.Bolus) N.E.Br. (6)
Ruschia verruculosa L.Bolus (6)
Perennial. Succulent. Ht ± 0.07 m. Alt 200–400 m. WC

E **viatorum** (L.Bolus) Klak
A. bina (L.Bolus) H.E.K.Hartmann (11)
Lampranthus viatorum (L.Bolus) N.E.Br. (11)
Ruschia bina L.Bolus (11)
Perennial. Succulent. Ht up to 0.9 m. Alt 200–1100 m. NC, WC

virgata (Haw.) Dehn = **Ruschia virgata**

E **watermeyeri** (L.Bolus) H.E.K.Hartmann
Ruschia obtusifolia L.Bolus (6)
Ruschia stenopetala L.Bolus (6)
Ruschia watermeyeri L.Bolus (6)
Perennial. Succulent. Ht ± 0.1 m. Alt 200–300 m. WC

E **wittebergensis** (L.Bolus) H.E.K.Hartmann
Mesembryanthemum wittebergense L.Bolus (6)
Ruschia wittebergensis (L.Bolus) Schwantes (6)
Perennial. Succulent. Ht ± 0.025–0.05 m. Alt 800–1100 m. WC

ANYSOCALYX L.Bolus 2405006
vaginatus (L.Bolus) L.Bolus = **Jacobsenia vaginata**

Perennial. Succulent. Ht up to 0.6 m. Alt? 'SA'

forficata in sense of L.Bolus in part, misapplied name = **Acrodon purpureostylus**

forficata (L.) L.Bolus = **Erepsia forficata**

E**fourcadei** L.Bolus
Mesembryanthemum fourcadei in sense of (L.Bolus) N.E.Br., not of L.Bolus, illegitimate name (12)
Perennial. Succulent. Ht? Alt 700–1100 m. WC, EC

E**framesii** L.Bolus
Mesembryanthemum framesii (L.Bolus) N.E.Br., illegitimate name (12)
Perennial. Succulent. Ht up to 0.07 m. Alt 620–920 m. EC

E**fredericii** (L.Bolus) L.Bolus
Mesembryanthemum fredericii L.Bolus (12)
Perennial. Succulent. Ht? Alt 300–700 m. WC

frutescens (L.Bolus) L.Bolus = **Stoeberia frutescens**

E**fugitans** L.Bolus
Perennial. Succulent. Ht? Alt 200–550 m. NC, WC

fulleri L.Bolus = **Ebracteola fulleri**

gemina L.Bolus = **Cerochlamys gemina**

E**geminiflora** (Haw.) Schwantes
Mesembryanthemum geminatum Jacq. (12)
Mesembryanthemum geminatum Salm-Dyck (12)
Mesembryanthemum geminiflorum Haw. (12)
Perennial. Shrub, succulent. Ht? Alt 50–500 m. WC

gibbosa L.Bolus = **Leipoldtia compacta**

E**glauca** L.Bolus
Mesembryanthemum valens N.E.Br. (12)
Perennial. Succulent. Ht up to 0.03 m. Alt up to 1200 m. NC

globularis L.Bolus = **R. spinosa**

E**goodiae** L.Bolus
Mesembryanthemum goodiae (L.Bolus) N.E.Br. (12)
Perennial. Succulent. Ht? Alt 700–1120 m. NC

E**gracilipes** L.Bolus
Perennial. Succulent. Ht? Alt 1200–1500 m. NC

E**gracilis** L.Bolus
Mesembryanthemum exile N.E.Br. (12)
Perennial. Shrub, succulent. Ht up to 0.15 m. Alt ± 120 m. WC

gracillima L.Bolus = **Antimima gracillima**

graminea H.Jacobsen = **Acrodon bellidiflorus**

granitica (L.Bolus) L.Bolus = **Antimima granitica**

gravida L.Bolus = **Eberlanzia gravida**

E**griquensis** (L.Bolus) Schwantes
Mesembryanthemum griquense L.Bolus (12)
Perennial. Shrub, succulent. Ht up to 0.4 m. Alt 800–1400 m. FS, NC

E**grisea** (L.Bolus) Schwantes
Mesembryanthemum griseum L.Bolus (12)
Perennial. Succulent. Ht up to 0.3 m. Alt 500–1000 m. NC, WC

gydouwensis (L.Bolus) G.D.Rowley = **Phiambolia incumbens**

hallii L.Bolus = **Antimima hallii**

hallowayana L.Bolus = **Eberlanzia schneideriana**

hamata (L.Bolus) Schwantes
Mesembryanthemum hamatum L.Bolus (12)
Perennial. Shrub, succulent. Ht up to 0.45 m. Alt up to 3000 m. NW, FS, L, NC

hamatilis L.Bolus = **Antimima hamatilis**

E**haworthii** H.Jacobsen & G.D.Rowley
Mesembryanthemum dilatatum Haw. (12)
Perennial. Shrub, succulent. Ht up to 0.9 m. Alt? 'CP'

herrei Schwantes = **Antimima herrei**

E**heteropetala** L.Bolus
Perennial. Shrub, succulent. Ht up to 0.2 m. Alt 800–1100 m. WC

E**hexamera** L.Bolus
Mesembryanthemum hexamerum (L.Bolus) N.E.Br. (12)
R. hexamera L.Bolus var. *longipetala* L.Bolus (12)
Perennial. Succulent. Ht? Alt 700–1100 m. NC

hexamera L.Bolus var. *longipetala* L.Bolus = **R. hexamera**

E**holensis** L.Bolus
Perennial. Succulent. Ht up to 0.2 m. Alt 200–350 m. WC

hollowayana L.Bolus = **Eberlanzia schneideriana**

horrescens L.Bolus = **R. cradockensis** subsp. **cradockensis**

horrescens L.Bolus var. *densa* L.Bolus = **R. cradockensis** subsp. **cradockensis**

horrida L.Bolus = **R. cradockensis** subsp. **cradockensis**

hutchinsonii L.Bolus = **Amphibolia laevis**

E**imbricata** (Haw.) Schwantes
Mesembryanthemum imbricatum Haw. (13)
Mesembryanthemum imbricatum Haw. var. *rubrum* Haw. (12)
Mesembryanthemum multiflorum Haw. var. *rubrum* (Haw.) Haw. (12)
Perennial. Shrub, succulent. Ht up to 0.6 m. Alt ± 175 m. WC

E**impressa** L.Bolus
Mesembryanthemum impressum (L.Bolus) J.W.Ingram (12)
Perennial. Succulent. Ht up to 0.06 m. Alt 730–1100 m. WC

inclaudens L.Bolus = **Esterhuysenia inclaudens**

E**inclusa** L.Bolus
Mesembryanthemum amplexum N.E.Br. (12)
Perennial. Succulent. Ht 0.06–0.08 m. Alt 800–1100 m. WC

inconspicua L.Bolus
Mesembryanthemum latens N.E.Br. (12)
Perennial. Succulent. Ht up to 0.15 m. Alt 100–1000 m. N, NC

incumbens L.Bolus = **Phiambolia incumbens**

E**incurvata** L.Bolus
Mesembryanthemum incurvatum (L.Bolus) N.E.Br. (12)
Perennial. Succulent. Ht up to 0.5 m. Alt 300–550 m. WC

E**indecora** (L.Bolus) Schwantes
Mesembryanthemum indecorum L.Bolus (12)
Perennial. Shrub, succulent. Ht up to 0.3 m. Alt 50–175 m. WC

E**indurata** (L.Bolus) Schwantes
Mesembryanthemum induratum L.Bolus (12)
Perennial. Succulent. Ht? Alt 700–1400 m. EC

insidens L.Bolus = **Antimima insidens**

integra Schwantes = **Smicrostigma viride**

NYMPHAEACEAE

Compiled by R.P. Glen

NYMPHAEA L. 2513000

(1) Phillips. 1921. *The Flowering Plants of South Africa* 1: t. 29.
(2) Mendonça. 1961. *FZ* 1,1: 175–180.
(3) Obermeyer. 1969. *The Flowering Plants of Africa* 39: t. 1541.
(4) Mendonça. 1973. *Flora de Moçambique* 8: 1–5.
(5) Landon. 1984. *Phytologia* 55: 109–111.
(6) Verdcourt. 1989. *FTEA* Nymphaeaceae: 3–11.

Note: Borsch & Wiersema are currently working on a long-term global investigation of the genus *Nymphaea*. Borsch states: 'While Verdcourt's treatment of the East African *Nymphaea* is the most comprehensive one available at this time, it is based entirely on herbarium study of these plants. Such studies cannot adequately address the effects of hybridization, resulting in largely sterile intermediate plants that blur the distinctions between species if they are not recognised as such. Based on field experience studying *Nymphaea* in North and South America and Australia, I cannot accept

Verdcourt's grouping of such diverse taxa as *N. caerulea*, *N. capensis* (its nomenclature problems aside), and *N. petersiana* under the largely Asiatic *N. nouchali*. I have mostly reverted to the earlier treatment of Conard in accepting these and others at species rank' (pers. comm.). Refer to http://www.victoria-adventure.org/waterlilies/family_tree.html for their proposed preliminary classification.

Note: these are root parasites and the original soil level often does not show on herbarium specimens, especially those with scale leaves. Hence heights given here are somewhat uncertain. Greek letters for subspecific taxa have often been included here, for completeness, but are usually omitted, unless no epithet was given. This genus is under revision by J. Morawetz of the Ohio State University, USA.

Note: these plants are root parasites with scale leaves that usually show only the flowers and perhaps the stem apex above ground. They are unusual in having subterranean stems that can reach a length

of 2 m. Heights given here probably include some underground parts. This genus is under revision by A.D. Wolfe of the Ohio State University, USA.

SALICACEAE

Compiled by R.H. Archer & M. Jordaan

Note: phylogenetic relationships within the Flacourtiaceae, Salicaceae and Achariaceae have been reassessed with *rbcl*, *trnL-F* and *ndhF* DNA sequences and several groups have been identified. The first group retains the family name Salicaceae as the name has nomenclatural priority, and the second group has the conserved name Achariaceae (Soltis *et al.* 2000, in *Botanical Journal of the Linnean Society* 133: 381–461; Chase *et al.* 2002, in *Kew Bulletin* 57: 141–181). *Aphloia* is in its own family, Aphloiaceae in the order Crossomatales (Matthews & Endress 2005, in *Botanical Journal of the Linnean Society* 147: 1–46). *Casearia*, with a number of other genera not analysed by Chase *et al.* 2002 with *rbcL* belongs together with a resurrected Samydaceae (Alford pers. comm.; Alford, M.H. 2005. *Systematic studies in Flacourtiaceae*. Dissertation, Cornell University, Ithaca, New York, 290 pp.). *Gerrardina*, also not previously considered should be placed in its own family (Alford, pers. comm.). The present publication, however, keeps *Gerrardina* in Salicaceae awaiting the publication in press.

SCROPHULARIACEAE
in broad sense, in part

Compiled by S.J. Smithies

Note: following recent molecular phylogenetic studies, there have been proposals for splitting up the polyphyletic family Scrophulariaceae into apparently monophyletic groups or clades, usually assigned a family name. One such was by Olmstead *et al.* (2001) in *American Journal of Botany* 88,2: 348–361. Here the genera were assigned to three main families: Scrophulariaceae in strict sense (including *Aptosimum*, *Hemimeris*, the Manuleae (*Zaluzianskya*), Selagineae (*Selago*) and *Verbascum*, plus families Buddlejaceae and Myoporaceae); Veronicaceae or Plantaginaceae (grouping the 'snap dragons' (*Nemesia*), *Veronica* and *Bacopa* together with *Plantago* and several other small families); and Orobanchaceae (comprising the parasites such as *Buchnera*, *Bartsia* and *Orobanche*). *Halleria* and possibly other shrub or tree genera were placed in Stilbaceae. Other recent references are Fischer (2004) in J.W. Kadereit (ed.), *Families and genera of vascular plants* VII (K. Kubitzki, ed.-in-chief): 333–432; Kornhall & Bremer (2004) in *Botanical Journal of the Linnean Society* 146: 453–467; Albach *et al.* (2005) in *American Journal of Botany* 92,2: 297–315 and Rahmanzadeh *et al.* (2005) in *Plant Biology* 7: 67–78. Since many genera have not yet been examined and there are some conflicting reports, the traditional grouping of genera in the Scrophulariaceae is followed here, except that the parasites and associated genera have been placed under Orobanchaceae.

Note: there have been many changes in the taxonomy of the Scrophulariaceae, from about 1990. Previously problems arose largely because of difficulties in finding suitable separation characters between both genera and species and superficial examinations. The Manuleae and Selagineae have been particularly difficult and many authors, prior to Hilliard, were very confused, especially Hiern (1904) and Rolfe (1901) in *Flora capensis*. Hence many of their names or synonyms are not included here. Authors often listed mixed specimens, and therefore many names have had to be cited as 'in part'. However, the other part was not always mentioned. Tracking the cited specimens has sometimes shown this information, which is of interest especially to those doing re-identifications. Greek letters for subspecific taxa have often been included here, for completeness, but are usually omitted, unless no epithet was given.

Chaenostoma montanum Diels (12)
Sutera luteiflora Hiern in part (13)
Sutera montana (Diels) S.Moore; Hilliard & Burtt (1982) excluding synonym *S. bolusii* Hiern (13)
Perennial, but sometimes appearing annual. Herb. Length ± 0.07–0.4 m. Alt 1070–1500 m. LIM, NW, KZN

E **multisecta** Hilliard
Perennial. Herb. Length ± 0.07–0.2 m. Alt 300–600 m. EC

E? **namaquensis** Hilliard
Perennial. Dwarf shrub. Ht ± 0.08–0.6 m. Alt 460–1600 m. NC

E **pedunculosa** (Benth.) Hilliard
Chaenostoma pedunculosum Benth. (12)
Sutera pedunculosa (Benth.) Kuntze (13)
Annual. Herb. Length ± 0.045–0.4 m. Alt 500–1000 m. NC

E **phlogiflora** (Benth.) Hilliard
Chaenostoma phlogiflorum (Benth.) Wettst. ex Diels (13)
Lyperia phlogiflora Benth. (12)
Sutera phlogiflora (Benth.) Hiern in part (13)
Perennial. Dwarf shrub. Ht ± 0.5 m. Alt 335–610 m. EC

E **pinnatifida** (L.f.) Hilliard
Chaenostoma molle (Benth.) Wettst. ex Diels (13)
Chaenostoma pinnatifidum (L.f.) Wettst. ex Diels (13)

Lyperia mollis Benth. (13)
Lyperia pinnatifida (L.f.) Benth. excluding varieties (13)
Manulea pinnatifida L.f. (12)
Sutera mollis (Benth.) Hiern in part (13)
Perennial. Herb. Length ± 0.3–0.45 m. Alt ± 830 m. NC, WC, EC

pristisepala (Hiern) Hilliard
Lyperia crassicaulis Benth. in part (13)
Sutera crassicaulis (Benth.) Hiern var. *purpurea* Hiern (13)
Sutera pristisepala Hiern (12)
Perennial. Dwarf shrub, lithophyte. Length 0.35–? m. Alt 1500–3000 m. FS, KZN, L, EC

pristisepala (Hiern) Hilliard × **J. breviflora** (Schltr.) Hilliard
?*Chaenostoma jacottetianum* Thell. (13)
?*Chaenostoma saccharatum* Thell. (13)
Perennial. Dwarf shrub. Ht ± 0.35 m. Alt 1980–2560 m. KZN, L

pristisepala (Hiern) Hilliard × **J. stricta** (Benth.) Hilliard
?*Lyperia crassicaulis* Benth. in part (13)
Perennial. Dwarf shrub. Ht 0.3–0.4 m. Alt ± 2000–2200 m. M?, FS, L, EC

E**racemosa** (Benth.) Hilliard
Chaenostoma dielsianum (Hiern) Thell. (13)
Chaenostoma racemosum (Benth.) Wettst. ex Diels, not of Benth., illegitimate name (13)
Lyperia racemosa Benth. (12)
Sutera dielsiana Hiern (13)
Sutera tomentosa of author, not of Hiern: Le Roux & Schelpe (1988), misapplied name (13)
Annual. Herb. Ht 0.05–0.6 m. Alt 300–900 m. NC, WC

ramosissima (Hiern) Hilliard
Sutera ramosissima Hiern (12)
Perennial. Dwarf shrub or shrub. Ht 0.3–1.5 m. Alt 490–915 m. N, NC

E**silenoides** (Hilliard) Hilliard
Sutera burkeana of author, not of (Benth.) Hiern: Fabian & Germishuizen (1982), misapplied name (13)
Sutera silenoides Hilliard (12)
Perennial. Herb. Length 0.2–0.5 m. Alt 1770–1875 m. LIM, M, KZN

E**stellata** Hilliard
Sutera pedunculata of author, not of (Andrews) Hiern: Levyns (1950), misapplied name (13)
Perennial. Dwarf shrub. Ht ± 0.2–0.4 m. Alt ± 60 m. WC

stricta (Benth.) Hilliard
Lyperia crassicaulis Benth. in part (13)
Lyperia stricta Benth. (12)
Perennial. Dwarf shrub. Length up to 0.45 m. Alt 1300–2200 m. M, FS, KZN, L, NC, EC

tenella (Hiern) Hilliard
Sutera flexuosa Hiern (13)
Sutera hereroensis of author, not of (Engl.) Skan: Merxmüller & Roessler (1967) in part, misapplied name (13)
Sutera pedunculosa of author, not of (Benth.) Kuntze: Hemsley & Skan (1906) in part, misapplied name (13)
Sutera tenella Hiern (12)
Annual. Herb. Ht ± 0.04–0.4 m. Alt? N, NC

E**tenuifolia** (Bernh.) Hilliard
Lyperia tenuifolia Bernh. (12)
Sutera atrocaerulea Fourc. (13)
Sutera atrocaerulea Fourc. var. *latifolia* Fourc. (13)
Sutera tenuifolia (Bernh.) Fourc. (13)
Perennial. Dwarf shrub. Ht 0.2–0.6 m. Alt up to 800 m. WC, EC

E**thunbergii** (G.Don) Hilliard
Chaenostoma fraternum (Hiern) Thell. (13)
?*Chaenostoma gracile* Diels (type lost in Berlin) (13)
Chaenostoma tomentosum Thell. (13)
Erinus tomentosus Thunb., illegitimate name, not of Mill. (13)
Lyperia tomentosa Pilg. (13)
Manulea tomentosa Benth., mistake for *Manulea thunbergii* G.Don (13)
Manulea thunbergii G.Don (12)
Sutera fraterna Hiern (13)
?*Sutera gracilis* (Diels) Hiern (13)
Annual. Herb. Ht 0.02–0.6 m. Alt 250–1000 m. NC, WC

E**tortuosa** (Benth.) Hilliard
Lyperia atropurpurea Benth. in part (13)
Lyperia tortuosa Benth. (12)
Sutera tortuosa (Benth.) Hiern (13)
Perennial. Dwarf shrub. Length ± 0.15–0.5 m. Alt 300–750 m. WC, EC

E**tysonii** (Hiern) Hilliard
Lyperia pinnatifida (L.f.) Benth. var. *macrophylla* Benth., name only in part (4)
Sutera altoplana Hiern (13)
Sutera tysonii Hiern (12)
Perennial. Dwarf shrub. Length up to 0.3 m. Alt 914–1920 m. NC, EC

E**zuurbergensis** Hilliard
Perennial. Dwarf shrub. Ht up to 0.5 m. Alt 610–915 m. EC

(9) Cook. 2004. *Aquatic and wetland plants of southern Africa*: 248–253.

Note: this genus has long needed revision, and many identifications are uncertain. All plants live under wet conditions, and many are found in places ranging from damp mud to fully submerged. Plant forms appear to be very plastic, depending on the environmental conditions—several species have small terrestrial forms and larger, somewhat different, submerged or floating ones. Because of this, Glück (1934) proposed habitat forms for many species but they have not been adopted generally.

africana Glück in part = **L. maior**

africana Glück var. **africana**
L. aquatica in sense of Fries (1924), not of L. (7)
L. aquatica of author, not of L. (9)
Perennial or annual. Herb, hydrophyte (rosulate herb or tenagophyte). Ht petioles up to ± 0.045 m. Alt? N, B?, NW, G, M, FS?, KZN?, L?, NC, WC, EC?
